About the Society of Cardiovascular Anesthesiologists

Care. Knowledge. Investigation.

Our Mission

- Provide excellent cardiovascular and thoracic patient care through education and research.
- Enhance outcomes for patients with cardiovascular and thoracic disease.
- Offer a variety of in person and online education for individuals involved in cardiovascular anesthesiology.

Our Members

- SCA has more than 3,000 members. The majority work in an academic setting and are experts in cardiac anesthesia.
- SCA is a trusted source for all cardiovascular and thoracic anesthesiologists. These specialists come to the SCA meetings for continuing education, peer to peer networking and to evaluate the newest products from leading manufacturers.

Our Partnership with Sponsors

Our goal is to provide you and your company dedicated facetime with our members and meeting attendees. Our sponsorship programs are designed to add value to the attendee experience and your partnership helps to enhance their involvement. **Each program offers dedicated attendee time for exhibitors.**

“Over the last several years we have systematically and substantially increased our spend with the SCA sometimes at the cost of our attendance and total spend at other meetings and events. A 5x increase from what we spent only six years ago is indicative of the tremendous benefit we have gained by raising our corporate profile and our partnership with the SCA.”

*Vice President, Global Marketing
Smaller and Mid-Stage Patient Monitoring Company*
